

YOUR CO-OP. YOUR COMMUNITY.

We exceeded our goal of \$500,000 before Aug. 16 deadline.

In a showing of tremendous community support, we are excited to announce that, as of 7/27/17, we've sold \$553,000 in shares to 137 Co-op owners. 71 member-owners responded to the May 24 mailing and invested \$282,100 in 7 weeks bringing us to this important benchmark 5 weeks ahead of the August 16 deadline.

What Now?

Reaching this critical milestone allows us to continue to pursue the total \$1 million Phase 1 investment goal by making this investment opportunity available to our many seasonal residents from out of state that have been a part of this dynamic community for years. In order to do this, under regulation, we must close out the current offering by August 16, 2017. **What does this mean?** If you are a current Maine resident Co-op member that has not yet invested, please consider making an investment today. You will have only until August 16th to invest in this Phase 1 fundraising effort.

We have made tremendous progress in a short amount of time. It is clear by the support shown to us, that our Co-op community is committed to making the new Co-op store a reality. We still have work ahead of us. Your investment will enable the Blue Hill Co-op to grow into a healthier, more efficient, more spacious, more easily accessible storefront that will have a much greater impact in fostering a vibrant local economy for generations to come. Investment shares are \$100 each. Every share will get us there.

THE TIME IS NOW. LET'S DO THIS.
